### **Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application.

#### **Listing of Claims:**

1. (Original) An arrowhead comprising:  
  
at least two blades attached with respect to a body of the arrowhead, each of said blades having a flat surface on at least one face of one of said blade and an insert mounted within a cutout of said blade, and a steering element extending outward from said flat surface.
  
2. (Original) An arrowhead according to Claim 1, wherein said steering element has a leading surface, and a distance between said leading surface and said flat surface of said blade increases in a direction from a front of said leading surface to a rear of said leading surface.
  
3. (Original) An arrowhead according to Claim 2, wherein said leading surface is flat.

Serial No.: 10/722,893  
Amendment dated 20 July 2004  
Reply to Office Action mailed 20 April 2004

4. (Original) An arrowhead according to Claim 2, wherein said leading surface is curved.

5. (Original) An arrowhead according to Claim 2, wherein at least a portion of said leading surface is concave.

6. (Original) An arrowhead according to Claim 1, wherein said steering element is integrated with said blade.

7. (Original) An arrowhead according to Claim 1, wherein said steering element is connected to said blade.

8. (Original) An arrowhead according to Claim 1, wherein said flat surface is planar.

9. (Original) An arrowhead according to Claim 1, wherein each said blade is removably attached to said body.

Serial No.: 10/722,893  
Amendment dated 20 July 2004  
Reply to Office Action mailed 20 April 2004

10. (Original) An arrowhead according to Claim 1, wherein each said blade is pivotably mounted with respect to said body.

11. (Original) A blade for an arrowhead, the blade comprising:  
said blade having a flat surface on at least one face of one of said blade and an insert mounted within a cutout of said blade, and a steering element extending outward from said flat surface.

12. (Original) A blade according to Claim 11, wherein said steering element has a leading surface, and a distance between said leading surface and said flat surface of said blade increases in a direction from a front of said leading surface to a rear of said leading surface.

13. (Original) A blade according to Claim 12, wherein said leading surface is flat.

14. (Original) A blade according to Claim 12, wherein said leading surface is curved.

Serial No.: 10/722,893  
Amendment dated 20 July 2004

15. (Original) A blade according to Claim 12, wherein at least a portion of said leading surface is concave.

16. (Original) A blade according to Claim 11, wherein said steering element is integrated with said blade.

17. (Original) A blade according to Claim 11, wherein said steering element is connected to said blade.

18. (Original) A blade according to Claim 11, wherein said flat surface is planar.

19. (Canceled)

20. (Original) A blade according to Claim 11, wherein a layer of adhesive is positioned between said flat surface and a bottom surface of said steering element.

Serial No.: 10/722,893  
Amendment dated 20 July 2004
